Description

The Commission's Energy Division is hosting a workshop about the results of the Demand Response Auction Mechanism (DRAM) Evaluation for 2018 through 2021 conducted by Nexant (now Resource Innovations) in partnership with Gridwell Consulting (Nexant Team). The Nexant Team will present its findings and recommendations from the DRAM Evaluation Report and answer questions from workshop participants about the Report.

Agenda

Note that times are approximate. For attendees that are only interested in certain sections of the presentation, it is recommended to join before the estimated time in case the workshop is ahead of schedule.
